

ONSHORE CUTTING BY DECOM ENGINEERING

TQ-10

Compact Onshore Precision Chopsaw

The TQ-10 Chopsaw from TorqCut is the most compact saw in the TorqCut range, purpose-built for cutting in tight, hard-to-reach locations on decommissioning, piling and demolition sites.

Equipped with a Tungsten Carbide Tipped (TCT) blade, the TQ-10 ensures every cut is fast, exceptionally clean, and precise across pipe, rebar, small bore tube and structural steel.

Lightweight and easy to deploy, the TQ-10 keeps onshore cutting operations running smoothly without the need for a crane.

APPLICATIONS

- Pipe, coated or bare
- Rebar & reinforced concrete
- Small bore tube, flat plate & structural steel
- Solid bars
- Confined / hard to reach cuts

CUT WITH CONFIDENCE

Designed and Manufactured in the UK | Decommissioning • Piling • Demolition

PRODUCT BENEFITS

- High Blade Efficiency
- Comprehensive Spares Package
- Compact Footprint
- Customisable Clamping
- Rapid Blade Change
- Simple & Safe Remote Control

FEATURES

- Fast & Clean Cut – TCT blade for precision
- 5–60 Cuts Per Blade – Depending on application
- Safe Remote Operation – Via handheld radio control unit
- Robust Shipping Frame – With comprehensive spares box
- Multiple Lifting Points – Versatile angle of deployment
- Customisable Quick Hitch – To suit excavator requirements

TECHNICAL SPECIFICATIONS

Cutting Capability	1" – 10" (25mm – 254mm)
Min Oil Flow	60 L/min @ 210 bar
Min Excavator Size	5T
Weight	750 kg
Blade Diameter	1,000 mm
Dimensions	1,488 x 767 x 537 mm
Power Supply	12V, 10A supply (or via excavator)
Mounting Options	Quick hitch, slew ring, or chain suspension
