LOST-TIME INCIDENTS

TorqCut delivers best-in-class onshore cutting technology for the decommissioning, piling and demolition markets, across four purpose-built models. From the compact TQ-10 for confined spaces, through to the flagship TQ-32 for heavy structural cuts, every saw is equipped with a Tungsten Carbide Tipped (TCT) blade — delivering market-leading cut times on hardened steel, reinforced concrete, flat plate, wellheads, piles and coated pipe.

CHOOSE YOUR TQ

TQ-10

COMPACT

The most compact saw in the range. Built for confined spaces and hard-to-reach cuts on pipe, rebar and small bore tube.

Capacity	1" – 10"
Weight	750 kg
Min Oil Flow	60 L/min @ 210 bar
Min Excavator	5T

TQ-16

LIGHTWEIGHT

Lightweight performance for demolition, site clearance, hardened steels and coated pipe. Minimises site footprint without sacrificing power.

Capacity	1" – 16"
Weight	950 kg
Min Oil Flow	60 L/min @ 210 bar
Min Excavator	8T

TQ-24

BEST-IN-CLASS

Best-in-class onshore cutting for wellheads, demolition, piles and coated pipe. Market-leading cut times across the toughest materials.

Capacity	1" – 24"
Weight	1,200 kg
Min Oil Flow	80 L/min @ 210 bar
Min Excavator	12T

TQ-32

HEAVY-DUTY

The flagship. Heavy-duty capacity for structural steel, casing, large bore pipe and reinforced concrete with replaceable blade tips for reduced operating cost.

Capacity	1" – 32"
Weight	2,400 kg
Min Oil Flow	150 L/min @ 210 bar
Min Excavator	20T

AT A GLANCE

Model	Cutting Capability	Min Oil Flow	Min Excavator	Weight
TQ-10	1" – 10"	60 L/min @ 210 bar	5T	750 kg
TQ-16	1" – 16"	60 L/min @ 210 bar	8T	950 kg
TQ-24	1" – 24"	80 L/min @ 210 bar	12T	1,200 kg
TQ-32	1" – 32"	150 L/min @ 210 bar	20T	2,400 kg

WHY TORQCUT

Market-Leading Cut Times

Faster cuts on inconel, duplex, concrete and coated pipe.

Up to 100 Cuts Per Blade

TCT blade technology slashes consumable cost.

Safer Operation

Handheld radio control removes operator from the cut zone.

Built for the UK Climate

Designed and manufactured in the UK for harsh environments.

Comprehensive Spares

Robust shipping frame ships with full spares package.

Flexible Mounting

Quick hitch, slew ring or chain suspension.
